

Landulph Parish Neighbourhood Plan

The Neighbourhood Plan is part of the recommendations in the Localism Act (2011) which enables communities to come together to influence the nature of the places where they live, for example where new housing should be sited and what that should look like.

This is an opportunity for us all to come together and shape the future of our local environment. We are at the start of the process and residents will be invited to give their opinions and make an input via meetings and questionnaires over the coming months.
