

and we think

YOU NEED

COMMUNITY

FIBRE BROADBAND

Community Fibre to Property Broadband

***** URGENT ACTION REQUIRED *****

Why do we need you to do this?

It is increasingly important to have good connectivity to the internet for our families, businesses and communities. We have a time limited opportunity to invest in the infrastructure of tomorrow in our community using available **Government vouchers** worth:

£1500 per Residential Household

£3500 per Business (SME Business or sole trader must be registered to the address in the parish)

If more than 75% of our households and businesses pledge their vouchers through the Parish council then Openreach will build the Fibre to Property network in next 14/18 months giving speeds of up to 1Gbps = 1000Mbps. This is up to **200 x faster** than we have now.

When connected, those that have pledged will need to sign up for a new broadband contract using the new network with their chosen supplier (BT, Sky, Vodafone etc) for at least 12 months (at today's prices about £30+

month). You will then get a confirmation from Department for Digital, Culture, Media & Sport for you to confirm you have your service. Openreach then get paid by the Government for building the fibre network. **The parish could wait 5+ years for a fibre network to be built if we don't pledge our vouchers now.**

What will it cost me?

This will cost you **nothing now** except the time to pledge your voucher to Landulph Parish Council. In 14/18 months time you will be required to sign up with your chosen provider. You can keep the level of service that you now have for **a fee similar to what you now pay**, or you can increase your speed as you require.

What we need you to do

At this stage please **pledge your voucher now.**

You can do this online at www.landulph.org.uk

or **email the parish clerk at clerk@landulph.co.uk** for a link to the online form

or **complete the form overpage and post** the completed form to Katherine Williams, 6 Rashleigh Avenue, Saltash PL12 4NS

We need to have **all pledges to the parish clerk in before 5/03/2021.**

Further details and FAQ's are on **www.landulph.org.uk**

Landulph Parish Council is collecting this information in order to allow Openreach to apply for gigabit vouchers from the Government to cover the cost of providing fibre internet connections to all of the properties in Landulph Parish. Landulph Parish Council will supply the information you provide to Openreach and will use it to keep you abreast of the Community Fibre Broadband Initiative.
